Preface

The Gati Shakti Vishwavidyalaya (GSV) – India’s first University in Transportation and Logistics sector, was established through The Central Universities (Amendment) Act, passed by the Parliament in 2022. The University is sponsored by the Ministry of Railways, Government of India. The University stands by its unique value proposition to offer logistics and transportation-focused applied education, training, skilling and research through experiential learning, multi-disciplinary research, and academia-industry interface. The Institute follows a demand-driven curriculum, while aligning with industry priorities. The University subsumes previously existing GSV (National Rail and Transportation Institute).

Gati Shakti Vishwavidyalaya (GSV) is a Central University and a pioneer in the domain of Transport and Logistics education in India. Founded in 2022 by the Act of Parliament, GSV subsumes the previously-existing National Rail and Transportation Institute (NRTI).

GSV programmes provide students the opportunity to learn from some of the best faculty, practitioners, experts, and academicians. Through a values-based approach to academic learning, students will be equipped with both a solid grounding in their core field of study, as well as core values, such as, inclusive leadership, nation-building, empathy, and environmental consciousness. The focus of the programmes is to prepare intellectuals grounded in practicality and equipped with 21st century skills desired in the transportation and logistics sector. A unique feature of programmes at GSV is the opportunity to experience the facilities and infrastructure of Indian Railways and associated establishments as “live laboratories”. Given its mission to be a world-class institution, the university has signed MOUs with the top ranked institutions such as IIT Gandhinagar; IIT Jodhpur; IIT Roorkee; Cornell University, USA; University of California in Berkeley, USA; Russia University of Transport (MIIT) in Moscow, Russia; St. Petersburg State Transport University, Russia; Japan Transport and Tourism Research Institute, Japan; and University of Birmingham, UK.

The academic programmes are based on three tenets of (1) Semester System, (2) Credit System and (3) Relative Grading. The Executive Council of the Institute has formulated a set of guidelines and rules to ensure a high standard of performance as well as for smooth functioning of the academic programmes.

10 Registration

10.1 Validation of Registration

Before the commencement of classes of each Semester, on a date specified in the Semester Schedule, every student is required to be present on campus and validate his/her registration.

10.2 Late Registration

For reasons beyond his/her control, if a student is not able to register or send an authorized representative with a medical certificate, he/she may apply to the Dean (Academics) for late registration. Dean (Academics) will consider and may approve late registration in genuine cases on payment of an extra fee called late registration fee. Late registration is permitted until a date specified in the Semester Schedule, typically one week after the beginning of the Semester.

10.3 Registration and Fee Payment

Every registered student must pay the stipulated fees in full before the specified deadlines. In the event that a student does not make these payments, he/she can be de-registered from all courses and his/her name can be struck off from the rolls.

10.4 Continuous absence and Registration Status

If a student is absent from the University for more than four weeks without notifying the respective Program Coordinator, his/her registration will be terminated and name will be removed from the Institute rolls.

11 Temporary Withdrawal

11.1 Semester withdrawal and absence for a semester can be granted under different conditions, viz.

- i) medical and personal grounds
- ii) industrial internship
- iii) exchange/deputation to another academic institution in India or abroad, and
- iv) disciplinary condition on application.

11.2 The condition as per the following should be clearly specified in the application.

- a. Semester withdrawal reflects the condition, in which a student is forced to withdraw from all courses in the semester for medical conditions. A student can apply for semester withdrawal if he/she has missed 20 or more teaching days on these grounds. An application for semester withdrawal will not be accepted after the commencement of major tests. A student is not permitted to request for Semester withdrawal with retrospective effect.
- b. Semester Leave indicates the situation in which a student is permitted to take one or more semesters off for industrial internship or any other assignment with prior approval and planning. The application is to be routed through his/her Programme coordinator and Dean (Academics).
Vice Chancellor is the final approving authority for such requests. All such applications must be processed before the beginning of the semester in which the leave will be taken. These Semesters will not be counted towards the maximum permitted time period for completion of the degree.
- c. When a student registers at another academic institution in India or abroad with the expectation of credit transfer or research work through a pre-approved arrangement including an MoU, the student should be considered as being on a Semester Exchange. The period will be counted towards the total period permitted for the degree.
- d. When a student is suspended for one or more semesters on disciplinary grounds, the student status should be called Disciplinary Withdrawal period.

12 Attendance Rules

- 12.1 It is mandatory for the students to attend all classes. Attendance Records of all students for each course will be maintained.
- 12.2 The faculty will announce the class policy on attendance with respect to grading etc., at the beginning of the Semester. This shall be done keeping in mind the importance of classroom learning in the teaching-learning process. Once the class attendance policy has been made clear to all the students registered for the course, the faculty will implement the same in totality.
- 12.3 For the purpose of attendance calculation, every scheduled class will count as one unit irrespective of the number of contact hours.
- 12.4 Attendance record will be maintained in every scheduled lecture, tutorial and practical class. Students are required to strictly adhere to and comply with any method or device employed by the faculty for purpose of Attendance Recording. Failure to do so may call for disciplinary action. The faculty will maintain and consolidate attendance record for the course (lectures, tutorials and practical classes together, as applicable).
- 12.5 A faculty may choose any one or more of the following as attendance policy.
- i) The faculty can assign 10% of the total marks to surprise quiz(zes).
 - ii) If attendance of the student is greater than 90%, result of the best two/three quizzes will be considered, else average of all quizzes will be considered.
 - iii) The faculty can allocate specific marks for participation in discussions in the class on a regular basis.
 - iv) If a student's attendance is less than 75%, the student will be awarded one grade less than the actual grade that he/she has earned. For example, a student who has got B grade but has attendance less than 75% will be awarded C grade.
 - v) A student cannot get P for an audit course if his/her attendance is less than 75%. The faculty can implement any other attendance policy provided the policy is approved by the Dean (Academics).
 - vi) If a student remains absent without sanctioned leave for more than 25% of the classes, then the faculty may recommend deregistration of the student from the course to

the Dean (Academics) through Program Coordinator. Dean (Academics) will submit the recommendations to the Vice Chancellor. If accepted, the student will not be graded or receive a W grade for the course.

12.6 Other implications of attendance

- i) If a student's attendance is less than 75% in more than two courses without any valid reason in a Semester, he/she is liable to be issued warning and put under probation. If this is repeated, the matter is liable to be referred to VC for action which could even result in expulsion.
- ii) If a student's attendance is less than 75% in any course or CGPA is less than 7.0, then he/she is liable to be barred from holding any position of responsibility in the hostel/institute in the next Semester.

13 Grading Policy

13.1 As a measure of students' performance, a grading system using the following letter grades and corresponding grade points per credit, as shown below, will be followed:

Letter Grade	Grade point Per Credit	Performance
A+	10	
A	9	
B	8	
C	7	
D	6	
E	5	
F	0	Fail
P	-	Pass (Particularly applicable to non-credit courses. In cases where only pass/fail applies to a credit course, P would stand for 10 grade points per credit for Pass and 0 grade points for Fail)

I	0	Incomplete (subsequently to be changed into pass (E to A+) or F grade in the same Semester)
W	0	Failure due to insufficient attendance in course

13.2 An 'I' grade is awarded in case of absence on medical grounds or other special circumstances, before or during the end-Semester examination period, provided the student has met the attendance criterion of the course. An application requesting, I-grade should be made at the earliest but not later than the last day of the end-Semester tests.

13.3 A Semester Grade Point Average (SGPA) will be computed for each Semester. The SGPA will be calculated as follows:

$$SGPA = \frac{\sum_{i=1}^n c_i g_i}{\sum_{i=1}^n c_i}$$

where 'n' is the number of subjects registered and cleared for the Semester, 'c_i' is the number of credits allotted to a particular subject, and 'g_i' is the grade-points carried by the letter corresponding to the grade awarded to the student for the subject. SGPA will be rounded off to the second place of decimal and recorded as such. The SGPA would indicate the performance of the student in the Semester to which it refers.

13.4 Starting from the second Semester at the end of each Semester S, a Cumulative Grade Point Average (CGPA) will be computed for every student as follows:

$$CGPA = \frac{\sum_{i=1}^m c_i g_i}{\sum_{i=1}^m c_i}$$

Where 'm' is the total number of subjects the student has registered and cleared from the first Semester onwards up to and including the Semester S, 'c_i' is the number of credits allotted to a particular subject 's_i' and 'g_i' is the grade-point carried by the letter corresponding to the grade awarded to the student for the subject 's_i'. CGPA will be rounded off to the second place of decimal and recorded as such.

The CGPA would indicate the cumulative performance of the student from the first Semester

up to the end of the Semester to which it refers.

The CGPA, SGPA and the grades obtained in all the subjects in a Semester will be communicated for every student at the end of every Semester.

13.5 In general, there shall be no rigid marks-to-grade linkage. Difficulty levels of the examinations, tests, assignments, viva-voce and other factors that contribute to the final marks are to be considered by the teacher/co-ordination committee of a subject while converting marks into letter grades.

Typically, marks-to-grade conversion should follow the guideline below:

Letter Grade	Marks Range
A+	≥ 90
A	$80 \leq m < 90$
B	$70 \leq m < 80$
C	$60 \leq m < 70$
D	$50 \leq m < 60$
E	$40 \leq m < 50$
F	< 40

13.6 Exceptionally high performance is to be assigned an 'A+' grade. The average performance is to be assigned a 'C' grade. Normally, in a reasonably large class of students (class size > 30), distribution of grades is expected to be as follows:

Letter Grade	Marks Range
A+	$\leq 10\%$
A	10–20%
B, C, D	20–35%
E	10–25%
F	$\leq 5\%$

13.7 When a student gets the grade 'F' in any subject during a Semester, the SGPA and the CGPA from that Semester onwards will be tentatively calculated, taking only 'zero point' for each such 'F' grade. After the 'F' grade(s) has/have been substituted by better grades during

a subsequent Semester, the SGPA and the CGPA of all the Semesters, starting from the earliest Semester in which the 'F' grade has been updated, will be recomputed and recorded to take this change of grade into account.

13.8 In certain courses, particularly in the case of non-credit courses, a grade of only pass or fail may apply. In such circumstances, a student will receive a grade of 'P' for passing the course or a grade of 'F' for failing the course. In case a grade of only pass/fail applies to a credit course, P would stand for 10 grade points per credit for pass and 0 grade points for fail.

13.9 Conversion of CGPA into percentage marks: In case of a specific query by students/employers regarding conversion of CGPA into percentage marks, the following formula will be adopted for notional conversion of CGPA into percentage marks. Formula:
$$\% \text{ Marks} = \text{CGPA} * 10$$

13.10 Grade Card

The grade card issued at the end of the semester to each student will contain the following:

- i) The name of the course and the credits for each course registered in that Semester.
- ii) The letter grade and grade point obtained in each course
- iii) The total number of credits earned by the student upto the end of that Semester in each of the course categories
- iv) The Cumulative Grade Point Average (CGPA) of all the courses taken from the first Semester.

14 Examinations

14.1 In assessing the student's performance in subjects, the system of continuous assessment is adopted by the Institute. In conformity with this practice, faculty members have the leeway to adopt any modes of assessment that they deem the most suitable for testing students' grasp on the subject and measuring their performance. As a result, some subjects may include mid-semester and end-semester examinations whereas others may use class tests/quizzes, submissions and other assessment tools.

14.2 The weightage assigned to different components of assessment will be announced by the concerned faculty member(s) in the beginning of the semester, preferably in the course outline.

14.3 **Modes of Assessment:** Various modes of assessment for theory and laboratory courses along with the recommended relative weightage of various components are given below: A large departure from the recommended modes of assessments and weightage will require prior approval from the Program Coordinator and Dean (Academics).

14.3.1 Modes of Evaluation for Theory Courses

- i Various modes of assessment used for rating students' performance in a theory course include quizzes, class tests, home assignments, group assignments, viva voce, mid-Semester test and Semester end examination. Relative weightage for in-semester continuous evaluations would be 50 per cent. The faculty may also set aside up to a maximum of 10 per cent of the in-semester marks for active participation in the class and the initiatives shown by the student.

14.3.4 Modes of Evaluation for Projects

- i At the completion of a project, the student will submit a project report which will be evaluated by duly appointed examiner(s). The evaluation will be based on the quality of the report and performance in the presentation/viva-voce examination on the project.
